

# WP 120 Solar

Product no.: T0052920799N

## Benefits

- › Soldering Iron 120 W, 24 V
- › Soldering of solar modules with WT stations and WR rework stations
- › For small and large components (High Mass) with high energy demand
- › Interchangeable XT soldering tips at low cost prices
- › Power Response heating technology with improved sensor position
- › Fast reaction time

## Technical Data

|                                           |                                                   |
|-------------------------------------------|---------------------------------------------------|
| Active Tip heating element technology     | ---                                               |
| Power Response heating element technology | on                                                |
| Silver Line heating element technology    | ---                                               |
| Voltage                                   | 24 V                                              |
| Power                                     | 120 W                                             |
| Tip range                                 | XT, XT Soldering head                             |
| Supply unit                               | PUD 121, PU WAD 101IG, WD 1M, WR 2, WR 3M, WR 3ME |
| WX-compatible                             | ---                                               |
| Temperature range °C                      | 50 - 450                                          |
| Temperature range °F                      | 150 - 850                                         |
| Heating time                              | 14                                                |
| Safety rest                               | ---                                               |
| Safety rest (optional)                    | WDH 10 (T0051512199), WDH 10T (T0051516199)       |
| Barrel                                    | T0058763743                                       |
| Integrated direct extraction              | ---                                               |
