

# SPI 41

Product no.: T0056403799N

## Benefits

- › 40 W, 230 V
- › Heating up time approx. 180 sec.
- › Tip temperature approx. 450 °C
- › For SPI Soldering tips

### Technical Data

|   |          |
|---|----------|
| Active Tip heating element technology     | ---      |
| Power Response heating element technology | ---      |
| Silver Line heating element technology    | ---      |
| Voltage                                   | 230 V AC |
| Power                                     | 40 W     |
| Tip range                                 | SPI40    |
| Supply unit                               | ---      |
| WX-compatible                             | ---      |
| Temperature range °C                      | ca. 450  |
| Temperature range °F                      | ca. 842  |
| Heating time                              | 180      |
| Safety rest                               | ---      |
| Safety rest (optional)                    | ---      |
| Barrel                                    | ---      |
| Integrated direct extraction              | ---      |
