

# W100PG

Product no.: W100PG

## Benefits

- › Weller® Heavy Duty Soldering Iron, 100W, 120V
- › Uses Weller "closed loop" method of controlling maximum tip temperature
- › Portable line voltage iron - no base station required
- › Stainless steel modular plug-in heater, greater efficiency & versatility
- › Temperature is controlled by tip-600°F, 700°F, and 800°F tips available
- › Nominal heat-up time with 700°F tip is 110 seconds
- › Three-wire grounded cord set
- › Uses CT6 series tips
- › Heating element type: Nichrome wound, plug in
- › UL and cUL listed

### Technical Data

|   |       |
|---|-------|
| Active Tip heating element technology     | ---   |
| Power Response heating element technology | ---   |
| Silver Line heating element technology    | ---   |
| Voltage                                   | 120 V |
| Power                                     | 100 W |
| Tip range                                 | CT6F7 |
| Supply unit                               | ---   |
| WX-compatible                             | ---   |
| Temperature range °C                      | ---   |
| Temperature range °F                      | ---   |
| Heating time                              | ---   |
| Safety rest                               | ---   |
| Safety rest (optional)                    | ---   |
| Barrel                                    | ---   |
| Integrated direct extraction              | ---   |
